Why hydrogen?

Last mile logistics

20% of total transportation costs

25+% of CO₂ emissions in Paris

Strict regulations

Increasing intensity

Increasing reputational impact

Green hydrogen mobility

Long range, fast charging

Zero emission (CO₂ and particles)

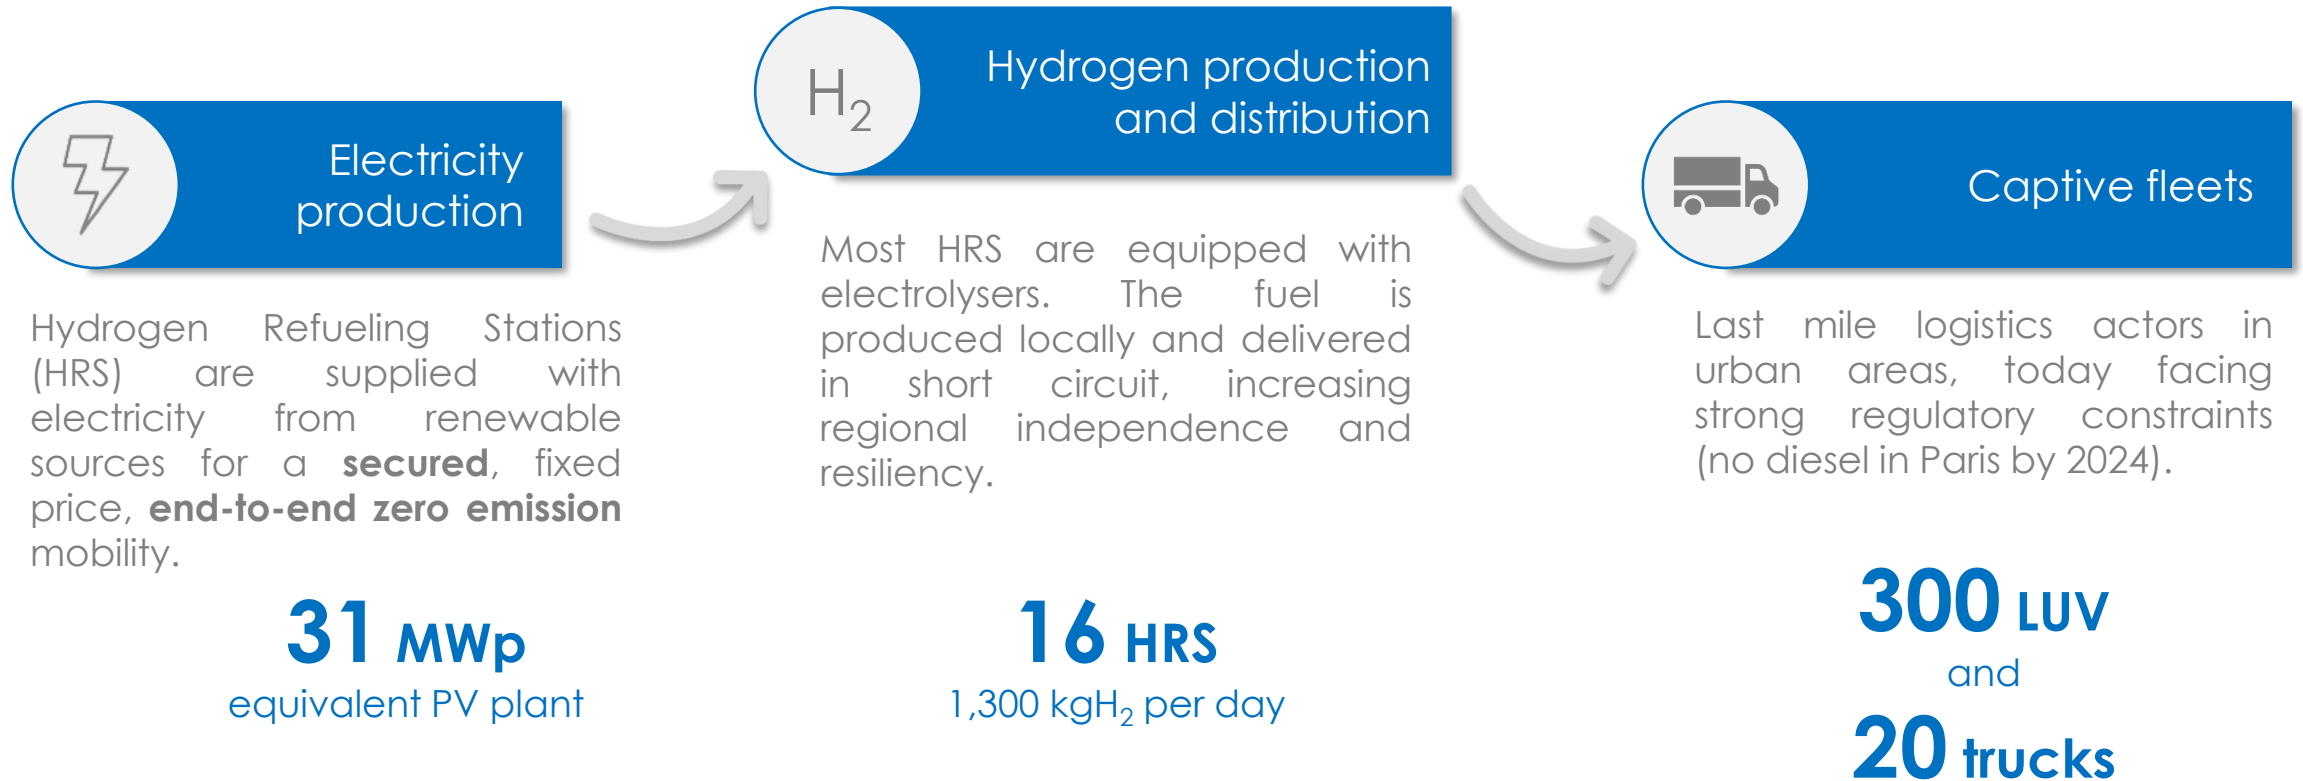

Reduced noise

Reduced maintenance

Local production/independence

| Last Mile

The concept

Cofinancé par le mécanisme pour l'interconnexion en Europe de l'Union européenne

ADEME

Agence de l'Environnement et de la Maîtrise de l'Energie

îledeFrance

Addressing the « **chicken and the egg** » issue at a regional level by providing **simultaneously** the production/distribution infrastructure and the fleet of vehicles.

| Last Mile

Just to have an idea...
